### OIL-CARE CHARACTERISTICS

- 
- OIL-CARE is made from melt-blown (Non-Biodegradable) polypropylene. Oil-Care is naturally hydrophobic and repels water over long periods of time, and absorb petroleum based products such as oils, fuels, hydraulic fluids and even mineral oils---Up to 25 times it's own weight! Incinerable. Dispose of according to federal, state, and local laws.

#### Poly Socks

O48 40-Pk 3"x 48" Socks  
O96 20-Pk 3"x 96" Socks

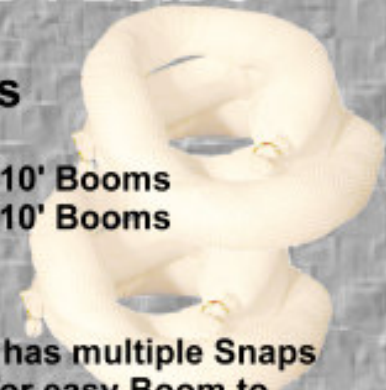

Socks are versatile and easy to use. Filled with polypropylene they provide thousands of sorbent surfaces. Socks are perfect for forming a sorbent barrier in and around machinery, spills and leaks.

#### Booms

OB5 4-Pk 5"x 10' Booms  
OB8 4-Pk 8"x 10' Booms

Each Boom has multiple Snaps and Loops for easy Boom to Boom coupling. Ideal for removing oils and fuels from waterways.

OT240 Sack Pillows  
5-Pk 25"x14"x5"

#### PILLOWS

OPI 12-Pk 15"x 25"  
OPA 36-PK 8"x 18"

Throw a pillow in the middle of a spill or place near a leak and you have a thirsty liquid eliminator.

Bilge Cleaners' are very strong mini-Boom type sorbents BC 10-Pk 5" x 18" with end loops.

#### OIL-CARE CHARACTERISTICS

Detail

### CHEM-CARE CHARACTERISTICS

- CHEM-CARE is specially designed to absorb most aggressive liquids (acids & caustics) and provides a high resistance to chemical reaction. Extreme care must be used to assure suitability of CHEM-CARE for your particular aggressive liquid. Note that CHEM-CARE does NOT neutralize the liquid absorbed. Non-Biodegradable. Dispose of according to federal, state, and local laws.

**UNI-CARE CHARACTERISTICS**

- **UNI-CARE** is a special high-power blend of pulp fiber and polymers. This combination creates one of the most effective gelling sorbents in the industry for a multitude of non-aggressive water based liquids. A single 8 ft. sock may absorb over two gallons of water---and retain the liquid. Also effective on oils, fuels, etc. Incinerable with Non-Biodegradable casing. Dispose of according to federal, state, and local laws.
